The College is constantly in the pursuit to groom all faculties of the students so as to make them psychologically tough, physically strong and decisive in their thought processes. The overarched challenges of the competing world in the life ahead. The students get to develop all their skills through the mentor-mentee scheme rolled out by the College. Each Teacher (permanent and working) acts as a mentor of a group of 10-20 students (mentees). The mentees are given the choice to select their mentors. A mentor- mentee form devised by IQAC is issued at the start of the academic session. The information collected through these forms generates a basic input about the aptitude, social and academic demands of the students. This brief information generated through the registration form provides a preliminary understanding of the requirements of the mentees associated with him. The mentors provide extending support to the mentees. Furthermore, Mentor-Mentee WhatsApp groups are also formed for the students. Debates, quizzes, slogan writings, discussions are organized amongst the mentees. The mentors provide support to the mentees with regard to the academics, peer pressures, financial constraints etc. This mentoring system acts as a support system for all confusions and conflicts which the students get confronted with during their studies. The WhatsApp groups created under student mentoring system of the College were also used to provide necessary information to the mentees in particular and students in general from March, 2020 onwards. The mentor- mentee scheme of the students become a very effective interactive platform for the students during stressful conditions during and after the first wave of Covid- 19 Pandemic. The mentors provide necessary support to the mentees so that they could overcome from the fear of examinations and other issues confronting them. The students are provided free books by their mentors so that their studies did not suffer. The mentors provide support to the students other than their studies as some students were unable to come regularly to the college. On the other hand some students were suffering from fear and anxiety of coming to college, etc. The College is thus, working effectively in the direction of sorting out students issues and every year the authorities to further improve this system by including all students enrolled in a session.

CRITERION VI - GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - Mention two practices of decentralization and participative management during the last

The college thrives on the concept of sharing of duties and thereby efficient means of governance. Internalization of the spirit of an organ of the institution in the process of decision making has led to participative management. The Academic calendar designed at the start sets the course map for all designated units to work as per the spectrum of academic diversity (69 UG 5 PG programmes/ combination of departments, catering to the academic and extracurricular demands and on the top of it the conduct of examinations, declaration of results and assignments throws up a challenge to the faculty and ministerial staff of affairs of the College. The college has institutionalised a system which thrives on the concept of collective management of the affairs of the academic year various Committees are framed by the Principal in consultation with the senior faculty. These committees include members from the faculty and staff. Furthermore student bodies comprising of class representatives and the Presidium are framed by direct elections. Covid-19 pandemic in the session of this year completely disrupted the academic calendar and with regard to completion of academic courses, conduct of examinations and on the top of it the psychological trauma the students and the faculty besides the human losses the society witnessed in general. Completion of examinations specifically the conduct of examinations and the addressing the concerns of the students were accomplished effectively due to the collective efforts of the faculty and examinations of the students of both UG and PG programmes were effectively completed through the collective efforts of IQAC, the controller of examinations, project coordinators, examination HoDs of different departments and the support staff in consultation with various one time exemptions, procedures for examinations (online and offline practical, assignment based) were worked out through the consultation with all stakeholders under the supervision and guidance of the Principal. The college's performance under the prevailing conditions is definitely a tribute to collaborative leadership. Another aspect which took everybody off guard was the sudden closure of the students faced and the reluctance stemming out to appear for examinations. The Counselling cell under the banner of Manodarpan Scheme of Govt. of India addressed the confusions, disgust and depressions in the student community through its interactions and thereby motivated them to take such situations positively. The Student Welfare cell worked tirelessly to address to the concerns of the students. The Manodarpan scheme has contributed in a long way in keeping the students motivated.

7.3 - Institutional Distinctiveness

7.3.1 - Provide the details of the performance of the institution in one area distinctive to its vision 500 words

Maintenance of student and academic diversity Student diversity: functions within the ambit of certain cherished objectives and aims of its establishment. The index of the success of such institutions in achieving its objectives and aims have been institutionalised and internalised by the institution since its post independence, access to education and that too higher education has been a select group of citizenry, who could afford to send their children to higher education. The vision of establishing a women college by Maharani Tara Devi was the primary objective of its establishment of a women college initially by the name Maharani Mahadevi and later the name Govt. College for Women Parade Ground Jammu in the year 1962. The objective was to disseminate education among the women residing in the remote and hilly areas of the state. The wider theme was to empower women through education and provide opportunity to allow women from diverse backgrounds to mingle with each other with a spirit of oneness and integration. This practice of offering admissions to students from different regions (Ladakh- leh, Kargil, Zaskar, Nubra etc, Doda etc) has been the touch stone of the functioning of the college right from its inception. Although many institutions offering education to female students have been established in the last more than seventy years of the existence of this college yet it remains an ardent duty stemming out of legacy, to offer admissions to students from the different regions of Jammu and Kashmir even if it may result in over capacity at times. This practice of maintaining the diversity of the student body through and through all along the entire journey of the college. A defining aspect of the College is the constant pursuit to introduce new programmes so that each student is able to choose the subject combination of their interest. With this aim, the number of subjects offered at UG level have increased over the years. (Anthropology and Geology) are expected to be introduced in the next year. Considering, that the students are eager to go for comprehensive and diverse disciplines the College also provides English literature and functional English subjects, and intends to offer literature in MILs at UG level. Presently five PG programmes and is in the process of introducing honours programme in English and English from the next academic session.
