None

Everything is fine

More interesting examples should be taken.

All ok

All good

No suggestions

1:Try to understand what students say 2:Be kind 3:Try to speak politely

Very well

..

Everything is good

No changes

Ver good

Neutral

focus on actively engaging students through varied teaching methods

1. Discussion of model answer sheet with the students. 2. Show internal exam answer sheets to the students.

Teachers should treat students equally and focus on weak students

Students should be treated as fellow human beings and not as someone low in hierarchical order. The subjects should be taught along with their practical aspects like field learning. Academic stress should be reduced that is taking a toll on student's health. The therapy/counselling for emotional intelligence and mental health should be made available. Semester lengths should be kept in mind.

1) Encourage teamwork. 2) Ask for feedback. 3) Make teaching a two way interaction.

Everything is good in our college

Very good institute of college

Class revisions

The teachers must calm and listens students problem..

Something else

Good teacher

Implement digital tools for interactive learning, focus on projects,peer discussions, and real-world applications.

Material should be provided by time.

They should need to complete the syllabus before taking externals

More field visits organised,need teachers in the starting of semester (teachers who are contractual)

All good no need of any such thing good going

Cycling Test

I am satisfied

Try to reach to every student and ask for doubts.Teach lesson in different formats.collaborative colleagues

Nothing...

Locate examine and record

Improve the time period for exams

Using different teaching methods, like group teaching and experiential learning.. Encouraging students to participate in more events.. Organizing more events and industrial visits..

Teachers should communicate with students. They should encourage and motivate students. They should help new students for practicals and assignments. They should identify strength

and weakness in students. And encourage them to grow in their abilities

Everything is perfect 😊

Be consistent with students and stay calm

Improve the facilities and create a environment where more students engaged in activities..

All. Things are good,

Understand the ability of learner

No suggestions because everything is good

Use boards while teaching

Gudf

Semesters timing is too short

Shagun Sharma

1 Give students guess paper

Interactive session ,real life example , practical assignment.

Uniform

I personally like my majors teacher their way teaching is brilliant, they even prepare us for exam and complete our syllabus, I don't find any improve in their teaching way they are good in it but in skills subject , there is problem skill means something we practice and get something to apply in our daily life but there is proper way in our Institute to take skill classes properly, there is no proper facilitate in our institute

Time of the clg

•To provide the students with proper working notes • To discuss the performance of the children in the internal assessment • To organize more social fests and social gatherings for more involvement.

Give more projects and real time problem to solve. Course

Very well experience

1. Assigning students some topics that they'll teach as teacher in the class. This would boost their confidence and engagement. 2. Friendly environment. 3. More visits, educational tours and discussions which would eventually help in learning and growing practically.

Interaction with last benchers also

More practical knowledge, career counselling

The exam result should be fair of external, field visit and communication necessary between teacher and students and there should be discussion about internal results

Listen students problem

They should pay extra attention to the children

Trip

Both are good

1 try to reach every student and ask for doubts 2 collaborate with colleagues 3 teach lesson in different formats

N

Understand the student's situation.... Humme tohha preparations ka tym milna chahiye exams ke liye saath hi externals aa jaate ha

1. Increase hands-on activities and real-world applications to make learning more practical and engaging. 2. Implement regular student feedback to continually refine teaching methods and course content. 3. Enhance the use of advanced technology to create a more interactive and diverse learning environment.

behavior

I don't think they need any improvement... They all are best

1. Interactive workshops 2. Mentorship programs 3. Feedback Mechanism

Please improve hygiene of washrooms, make electricity backup in every class and repair top floor of library as soon as possible

Questionnaire and services 2 chart 3 rating scales

Good communication skill, best teacher for understanding students and knowledge will be

provide

1. Break of 10-15 minutes after every class. 2. By giving real life examples. 3. By listening to students opinion also while discussing any topic in class whether the student is right or wrong, this will help the students to be more accurate for the next time.

Not

Maintenance proper uniform

Skills subject based on doing things not only theoretical

Stay regular. Be fair . Be kind
